Dear Sir or Madam,

During their last conference in 2017, ASEM Ministers of Education adopted the *Seoul Declaration* which has declared *people-to-people connectivity* as a key element of cooperation for the next decade. Therefore, we invite proposals for papers pertaining the following topics:

-) **Boosting exchange: balancing mobility between Asia and Europe through digital formats?**

Background:

The *Asia Europe Meeting* (ASEM) compiles 51 different countries and societies which are all committed to strengthening ties and deepening cooperation between Asia and Europe. The ASEM Education Process constitutes one pillar under this informal intergovernmental forum for dialogue and cooperation. On a regular basis, conferences on specific educational issues are held within the ASEM framework.

During their last conference, ASEM Ministers of Education adopted the *Seoul Declaration* which has declared *people-to-people connectivity* as a key element of cooperation for the next decade. - 4) **Industry 4.0: new challenges for skills and competences of young students and graduates**

The selection of papers is based on the relevance to one of the four topics. Furthermore, papers will be selected on their relevance to the ASEM Education Process and their valuable input for policy recommendations. Based on the evaluation of the abstract, DAAD will select 4 to 6 papers.

Selected candidates receive free accommodation for the duration of the conference and travel subsidies related to the seat of the home institution. Additionally, a 500€ lump sum is awarded for each selected paper. The papers will be presented during a workshop session at the conference and published in a conference publication.
