ABOUT THE TRAINING PROGRAM

With an idea to nurture the scientific field for understanding basic chemical and analytical techniques for producing new materials with controlled functions, BBAU established the Department of Chemistry under the aegis of School for Physical and Bioclanic Sciences.

This training program aims to inculcate the feeling of science and technology in our students and researchers and enhance their employability through self-employment, startups and sustainability.

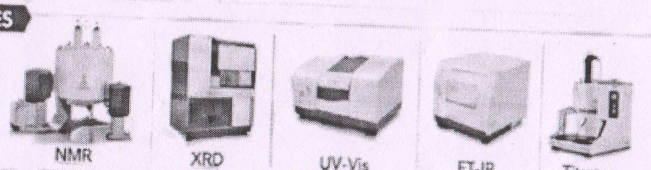
Our Department of Chemistry is committed to become a self-sustaining centre through quality training at minimal cost, capacity building and resource optimization for long term scientific growth.

AIM & VISION

- To promote advanced scientific knowledge and hands-on expertise in modern analytical techniques.
- To strengthen research competency and encourage innovation, entrepreneurship, self-reliance and startup.
- To create a self-sustaining training platform for students, researchers and industry professionals.
- To contribute to national development by building skilled human resources in analytical sciences.

THE TRAINING PROGRAM COMPRISES

- 10 Expert Lectures
- 10 Demonstration Sessions
- Hands-on Training on Modern Instruments
- Data Analysis & Interpretation
- Participants Presentations



Practical Work | Sample Analysis | Data Interpretation | Research Applications | Certificate of Participation

HIGHLIGHTS

Expert Lecturers | Hands-on Training | Exposure to Modern Instruments | Interactive Sessions & Discussion | Mentoring & Research Ongoing Support | Certificate of Participation

WHO CAN PARTICIPATE: Seudents | Research Scholars | Faautly | Scientists | Indiartry Prefrecionalj

PATRON

Prof. Raj Kumar Mittal
Hon'ble Vice Chancellor
BBAU, Lucknow

CO-PATRON

Prof. Kanjan Singh (Co-Patron)

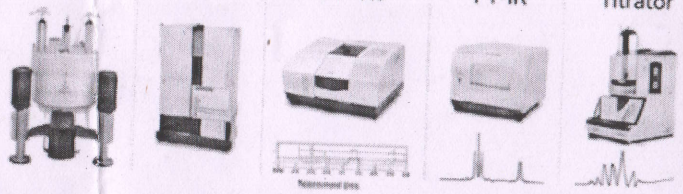
Prof. Gajanan Pandey (Co-Patron)

ORGANIZING COMMITTEE (Members)

- Prof. Anjani Kumar Tiwari (Chairman)
- Dr. Preeti Gupta (Convenor)
- Dr. Jyoti Pandey (Co-Convenor)
- Dr. Shailesh Kumar (Co-Convenor)
- Dr. Jawahar Lal Jat (Joint Secretary)

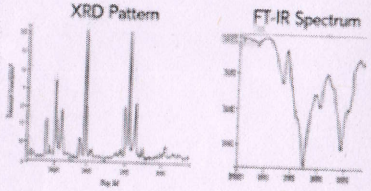
WHY THIS TRAINING?

- Comprehensive hands-on exposure to modern analytical instruments used in research and industry.
- Critical for innovations in Medicinal, Material Science, AYUSH and related interdisciplinary fields.
- Enhances research capability, problem-solving skills and career opportunities.



KEY INSTRUMENTS & LEARNING TECHNIQUES

- NMR Spectroscopy
- UV-Visible Spectroscopy
- FT-IR Spectroscopy
- X-Ray Diffraction (XRD)
- Titration & Titrimetry (Acid Titrator)
- pH Meter & Ion Analyzer
- Melting Point & Polarimeter
- Electronic Analytical Balance
- CADD (Computer-Aided Drug Design)
- Data Processing & Interpretation



BENEFITS & IMPACT

- Develop skills in cutting-edge analytical techniques.
- Cost-effective training for students, researchers and professionals.
- Enhances research quality and industry competitiveness.
- Supports innovation, startups and national growth.
- Strengthens self-reliance and reduces dependence on external facilities.

IMPORTANT DATES

1st September 2026	:	Registration Starts on
23rd September 2026	:	Last Date of Registration
