6. Understand how partnership is different from other forms of business organization
7. Learn about Procedure for registration of partnership.
8. Understand about the Re-constitution and Dissolution of a firm and formalities related thereto, Rules upon Dissolution of Partnership, and special features of limited partnerships.

## **Paper-III Information Technology & Computer Fundamentals BBM-203**

### **Course Objectives:**

Information technology today has become vital for smooth functioning of all the departments in a company, and in security related purposes. Millions of jobs have been created by IT, and hence, today, it is essential for everyone to understand what information technology is, and how it plays a vital role in every aspect of modern-day life. Hence the objective of this course is to familiarize the students with the basic fundamentals of computer, operating system, networking, and use of computers in data processing. The course will help students recognize the importance of the information and apply their knowledge and to expose them to the present day capabilities and limitations of computers.

### **Course Outcomes**

After completing this course, students will be able to

1. Understand basic concepts and terminology of computers.
2. Have a basic understanding of personal computers and their operations.
3. Use Internet/Web services as a resource for learning and discovery
4. Be able to identify issues related to information security.

### **Paper IV- English II (Including Legal Writing) BLB 204**

#### **Course Objective**

Communication skills have become immensely important for a good and effective lawyer-ship. A good communicator not only impresses the listeners but also easily makes space within the social systems. At the same time an effective communication helps to tackle the client interviews effectively. Court rulings and legal reasoning need good communication skills so as to provide an impressive reading the world wide. Therefore the subject will certainly be helpful in excelling communication skills and lawyer-ship of the individual.

#### **Course Outcome**

This course is designed to imbue among the students:

1. Understand, identify, develop and practice essential Communication skills during their legal studies and in their everyday life.
2. Imbibe among students the intricacies of Client Interviewing.
3. Understand methods of Legal Counseling.

### **Paper V- Business Statistics BBM- 205**

#### **Course Objectives:**

There's an old saying 'If you can measure it, you can manage it'. What's measurable is almost always presented in the form of statistics. Without the use of statistics the business is virtually impossible. Statistics are used to make a wide range of decisions in business and. The environment is highly complex and Business statistics help in taking sound decision in the uncertainty. Statistics play an important role in business. A successful businessman must be very quick and accurate in decision making. Hence the basic objective of this course is to develop students' familiarity with the basic concepts and tools in statistics so as to enable them to resolve complex problems of decision making in business.

### **Course Outcomes:**

After completing this course, students will be able to

1. Produce appropriate graphical and numerical descriptive statistics for different types of data.
2. Identify statistical tools needed to solve various business problems
3. Develop the skill of performing the calculations needed for various methods of analysis
4. Understand the concept of hypothesis and will also learn various technique of hypothesis testing which will help them to take sound decisions.

### **Paper-VI- Economic Environment of Business BBM -206**

#### **Course Objective:**

The business operates in the economic environment and is influenced by it. The cut throat competition has made economic environment more important than ever it has been. Hence the course has been designed with the purpose of familiarizing the student with various aspects of economic, social, political and cultural environment of India. #### **Course Outcome:**

After completing this course, students will be able to

1. Analyze various competitive forces in environment and to cope with the changing regulations affecting business and its profitability.
2. Understand various laws and role of SEBI in India.
3. Analyze various trends and issues of Indian Economy w.r.t. Privatization and Globalization.
4. Understand the monetary and fiscal environment in India and functioning of RBI.

## **Semester-III**

### **Paper I- Constitutional Law-I LB-301**

#### **Course Objective**

The Objective of this paper is to provide understanding of basic concepts of Indian Constitution and various organs created by the constitution including their functions. In this course, Student will study areas of constitutional law that are essential for an understanding of the fundamental concepts and the unique complexion of the Indian constitutional system. Student will explore federal structure, the separation of powers, and Liability of State.

#### **Course Outcome**

This course is designed to create among the students:

1. Demonstrate an advanced and integrated understanding of Constitutional Law.

2. Understand the evaluation and development of the origin and nature of Indian Constitution.
3. Analyze the role of State in transforming governance for justice, social, economic and political.
4. Understanding the procedure of the amendment of the constitution and Basic structure.

## **Paper-II- Law of Torts and Consumer Protection Act LB-302**

### **Course Objective**

This module examines a broad range of torts protecting a variety of different interests. The module begins by situating the law of torts in relation to the broad principles underpinning contract and criminal law; introduces you briefly to the broad range of torts, and then focuses on the fundamental principles of liability with particular reference to negligence. Other torts (e.g., nuisance) are considered, as are current issues of particular difficulty and importance in respect of tort law. Students will be encouraged to consider and evaluate the role, nature, and functions of tort law, as well as its technical rules.

### **Course Outcome**

This course is designed to create awareness and understanding among the students about:

1. The functions of tort law
2. The basic principles relevant to other selected torts, e.g. battery, and recognise and explain their relevance and influence in the key areas studied
3. The basic principles regarding tort remedies, and determine which heads are recoverable in hypothetical problem questions
4. The areas of overlap between different torts, and links between tort and other legal topics, e.g. contract, human rights, and critically compare their underlying principles in relevant respects

## **Paper-III- Law of Crimes –I LB-303**

### **Course Objective**

This paper is an introduction to the substantive law of crimes, including essential elements of crimes, responsibility and defences. The paper also aims to familiarize with the basic principles of criminal law determining criminal liability and punishment.

### **Course Outcome**

After the completion of the course, students should be able to:

1. Describe the basic principles of criminal law including defences, kinds of criminal liability and various theories of punishment.
2. Understand case analysis and statutory construction.

## **Paper-IV- Operational Research in Management BBM- 304**

### **Course Objectives**

The operation research is a helpful tool in solving complex business problems by mathematical tools in highly uncertain environment. The objective of this paper is to develop students' familiarity with the basic concept and tools in operations research. These techniques assist specially in resolving complex problems and serve as a valuable guide to the decision makers.

### **Course Outcomes**

After completing this course, students will be able to

1. Understand the basic concept of operation research and its role in decision making
2. Interpret and solve business-related problems with the help of mathematical techniques.
3. Learn solving problem involving limited resources to get the optimum solutions.
4. Identify project goals, constraints and resource requirements in order to achieve project success.

## **Paper-V- Financial Accounting BBM-305**

### **Course Objective**

The main objective of this course is to familiarize the students with the basic accounting principles and techniques of preparing and presenting the accounts for use of accounting information. Further, it aims at acquainting the student with those significant tools and techniques of financial analysis, which are useful in the interpretation of financial statements. These tools and techniques form an important part of management planning and control systems. Thus, the course does not intend to make the students expert accountant.

### **Course Outcomes**

After completing this course, students will be able to:

1. Understand the roles of accountancy and accountants in a business firm.
2. Learn the mechanics of accounting principles and standards.
3. Analyze real-world business accounting system with a systematic theoretical framework.
4. Develop analytical ability to make optimal financial decisions for business.

## **Paper-VI- Organizational Behaviour BBM-306**

### **Course Objectives**

*The most important asset of any organization is its' people* and its success largely depend on the same. For effective management of people, it is essential to perceive their requirements. Since individuals

differ in the behaviour, it becomes very difficult to come with a unique solution which can be applied on all. *Organizational Behaviour* helps us to study the complex nature of human beings in organizations by identifying causes and effects of that *behaviour*. The course aims to provide an understanding of basic concepts, theories and techniques in the field of human behaviour at the individual, group and organizational levels in the changing global scenario.

### **Course Outcomes**

After completing this course, students will be able to

1. Analysing the behavior of individuals and groups in organizations.
2. To evaluate the reciprocal relationship between the organizational characteristics and managerial behavior.
3. Develop practical insights and problem solving capabilities for effectively managing the Organisational processes
4. To gain better understanding of organization culture and conflicts
5. Developing conceptual understanding of change and its implementation.

## **Semester-IV**

### **Paper –I- Constitutional Law – II LB-401**

#### **Course Objective**

The Objective of this paper is to provide understanding of concepts of State. In this course; Student will study meaning of State, Concept of State Instrumentality. Student will explore the meaning and concept of Fundamental Rights Fundamental Duties and Directive Principles of State Policies and Emergency provisions.

#### **Course Outcome**

This course is designed to create among the students:

1. Understand the Concept and Utility of State and its role in protection of fundamental rights.
2. Understand the six broad categories of Fundamental Rights guaranteed by the Constitution to its citizens.
3. Understand the Fundamental Duties that can help the students make their neighbourhood, city, and country better.
4. Analyze the relationship between Fundamental Rights and Directive principles of State Policies.

### **Paper-II- Law of Torts-II and Motor Vehicle Act LB-402:**

#### **Course Objective**

This module examines Specific torts protecting a variety of different interests. Further the liabilities which arise under the law torts will be dealt in detail. The student will be able to know about the remedies under the law of torts as well as about Motor Vehicle Act.

### **Course Outcome**

This course is designed to create among the students:

1. The key principles of the torts of negligence, nuisance, and the rule in Rylands v Fletcher, including principles of liability, limitation and defences; determine answers to hypothetical problems concerning these torts; and appreciate key decisions in these torts.
2. The basic principles relevant to other selected torts, e.g. battery, and recognise and explain their relevance and influence in the key areas studied
3. The basic principles regarding tort remedies, and determine which heads are recoverable in hypothetical problem questions
4. Knowledge about the Motor Vehicle Act

## **Paper-III- Law of Crimes –II LB-403**

### **Course Objective**

The paper focuses on the various substantive crimes under the Indian Penal Code.

### **Course Outcome**

After the completion of the course, the student should be able to:

1. Have an understanding of various categories of crime.
2. Understand how to read a fact pattern and identify pertinent issues of criminal law.
3. Demonstrate an understanding of case analysis and statutory construction.

## **Paper-IV- Human Resources Management BBM-404**

### **Course Objective**

The objective of this course is to familiarize the student with a broad perspective on themes and issues of Human Resource Management along with their relevance and application in the Indian prospective. It will help the students to build up and refine decision-making skills so that they can help organizations effectively.

### **Course Outcomes**

After completing this course, students will be able to:

1. Understand the skills set required for today's HR professionals.
2. Understand the importance of staffing decisions including recruitment and selection.
3. Understand, implement and evaluate different types of training methods.
4. Differentiate between performance and potential appraisal.
5. Know the common HR practices

## **Paper-V- BUSINESSLAW LB-605**

### **Course Objective**

This paper is designed to provide the students with knowledge of the legal environment in which a consumer and business operates and understanding about the important statutes governing transfer of property in goods and negotiable instruments.

### **Course Outcome**

On completion of course of Business Law:

1. The students will be able to understand the relevance of business law to individuals and businesses and the importance of role of law in an economic, social and political context.
2. The students will be able to identify the fundamental legal principles behind the business agreements.
3. The students will be able to understand the relationship of ethics and law in business.
4. The Students will be able to learn how to communicate effectively using standard business and legal terminology.

## **Paper-VI- STRATEGIC MANAGEMENT BBM-606**

### **Course Objectives**

The objective of this course is to give understanding of the basic concepts and issues in strategic management and their application in business decisions. The course aims to acquaint the students with the nature, scope and dimensions of business policy and strategic management process.

### **Course Outcomes**

After completing this course, students will be able to:

1. Understand the meaning and need of strategic management.
2. Understand the complexities of strategic management.
3. Understand how the strategies are made.
4. Understand the role of environmental scanning and SWOT analysis while strategy making.

## **Semester-VII**

### **Paper-I- Property Law Including Easement And Indian Registration Act LB701**

#### **Course Objective**

The concept of property and the nature of property right are basic to the understanding of law relating to property. The objective of this paper is to focus on concept and classification of property as well as principles governing transfer of immovable property.

#### **Course Outcomes**

On completion of this course:

1. The students will be able to understand the most fundamental concept in property law including easement and registration.
2. The students will be able to appreciate the significance of property law from various perspectives including economic efficiency, underprivileged perspectives.
3. The students will be able to develop skills for applying technical rules of property transfer.

## **Paper-II- Public International Law including Conflict of Laws LB-702:**

### **Course Objective**

The Public International Law (PIL) Program introduces students to the principal treaties and case law within international law and calls upon them to consider the context at hand in factual situations. In order to be able to apply their knowledge to contemporary problems, students are given insight as to the interaction between international, regional, and national jurisdictions, the impact of non-legal systems such as politics and economics, and the consequences of fragmentation of international law into specialized sub-fields. Further students will be taught Conflict of Laws, also sometimes called Private International Law, is concerned with what happens in cases where not all of the facts are tied to one jurisdiction.

### **Course Outcome**
